Very good book. Awesome Presentation !

By Kumar Gauraw

I very recently read this book and liked the presentation, little stories that the author presented to relate to different scenarios where our attitude can generally get messed up and how to overcome such situations gracefully and get the attitude on track.]

I think it's a great book and everybody can learn something from this book. Well composed and great teaching.

Outstanding Book!

By RD

I would recommend this book to anyone looking for personal growth in their attitude. Sam Glenn is a great author and he put the book together in an outstanding way, listing examples and his reasoning. I keep it handy to refer back to different chapters and I have recommended it to all my friends at work (those who need help with their attitude).

Helpful to me

By Amazon Customer

I have to disagree with the previous review. It might not be the greatest self-help book I have ever read, but it certainly isn't the worst. I felt it was helpful in reminding me how important my own attitude is and some good tips on keeping it positive.
