Informational

By FoodObsessedMom

This anthology is very useful in understanding at a glimpse what American literature is all about. It has enough variety to give one a sense of all types of American literature, past and present. One of the few textbooks I've actually enjoyed.

An excellent anthology for students of American Literature

By Jack Moninger

This anthology contains not only well selected pieces but very nicely written historic introductions to the sections of the text. Author information is also provided in a thoughtful and pertinent manner.

I actually selected this as a text for a literature course at the university level. The students found it to be very user friendly, and I found it to be one of the best texts I used in my forty year teaching career.
