This book is a must read for the concern audience on the subject of Reparations. Europe and America owe an enormos debt to those people who once walked this earth. of whom they murder and worked to death White, Black and Red.

Yes, please!

By A. Harding

This book enlightens the reader on many important historical points and yet the story has yet to be fully told. Barbadian society is immensely complex due to the extreme situations so many generations have endured. Subsequent publications that examine the nature of detrimental social and psychological effects which persist in Barbados right through to the present day would be most welcome.
