Drifting started as a niche motorsport among Japanese-American Californians, but has quickly evolved into a full-fledged competitive motorsport involving everyone from kids in the Midwest to a 55-year-old World Rally Championship Driver.

This is the first how-to book to focus on both how to properly prepare a car to compete in drifting events, and how to drive it effectively in those events. Written by one of the original American drifters, it expertly covers car preparation, driving techniques, competition rules, and much more.

Drawing on an extensive storehouse of knowledge and using full-color photography, diagrams, and charts to support his text, Calvin Wan explains the theories behind every aspect of the sport. For those who want to do it, those who like to watch, and those who simply seek to understand, this is the quintessential guide to drifting.

Gift for Hubby

By E Mack

I purchased this book as a Christmas gift for my Husband. He has become obsessed with drifting! He loves it! Very information!

4 of 6 people found the following review helpful.

A waste of time

By shakespeare

If you want to see many stunning drifting photos, it is suitable for you. However, if you want to learn how to drift, reading this book is a waste of time.

I have read numerous racing technique books and this is the first time I read such a book WITHOUT any diagrams. Imagine you don't swim and just jump into the sea after reading a book on learning swimming with no diagrams. The result will be..... you bet!
