A theologically sound interpretation with applications.

By A Customer

Ironside is marvelous in his commentary on Daniel. His interpretation of prophecies are very sound as well as his interpretation of the whole book. The part of the book that is amazing is the personal application which he draws from the very rich pages of the book of Daniel. A masterpiece in biblical interpretation.

A great commentary on the book of Daniel

By Renee

Overall it helped me understand the book of Daniel better than just about any commentary I've read. There were a few things that I (and other commentators that I trust) disagree with his interpretation of, but considering how long ago it was written, I still think it is a relevant and necessary commentary to read for any Christian seeking to understand the book of Daniel better. I've started slowly getting all of Ironside's commentaries.
