We live in a time of increasing economic uncertainties and challenges. Worldwide. The financial crises covering and shaking our globe since 2008 brought a new destructive dynamic to a process that so far seemed barely noticeable. Despite all efforts and assurances, worldwide and regional organizations, national governments, 'system-relevant' financial institutions and the corporate sector have failed to find real solutions to stop this dilemma. How could they, considering that from a pure mathematical point of view and its setup, our current world finance system will always head for destruction and collapse? Therefore, against this backdrop the quest for sound and lasting solutions is more than justified.

How much and in what way does this destructive world financial system influence your day-to-day life, decisions, possibilities and opportunities negatively in our private and professional and what are God's answers to and solutions for it?

In seven parts, this book tackles a range of important issues that will help to get a clearer picture of all of this. Part 1 deals with the question whom we truly serve. Part 2 provides a simple, objective, balanced and good understanding of what money really is and how the monetary system of the world works. Part 3 tackles the problems stemming from this system, which thrives on fear, anxiety, worry, pressure, oppression, and injustice, and enslaves people slyly and increasingly. Part 4 deals with the quest for answers to this. In part 5 introduces a paradigm shift on this whole subject of finances, which, in part 6, is followed by a wide range of biblical principles that should increasingly govern our handling of money. Adherence will loosen the grip of money on our life, revoke our servitude to it, and lead to much greater freedom. Part 7 will therefore deal with the practicalities of God's road into financial freedom.

So in a way this is a rather comprehensive (reference) book that deals with the financial approach of two diametrical opposed dominions (the world system and the Kingdom of God), if you like. As such it attempts to bring light into today's struggle of believers, who want to serve God wholeheartedly but find themselves engulfed by all sorts of economic pressures.

A must read for such a time as this...

By MorningGlory

"Finances-A Paradigm Shift" is about just that - a paradigm shift. Gottfried Hetzer shares with us in this book how God intends for us not merely to survive the coming financial and economic meltdown, but to thrive in the midst of it and to be a blessing to many others. Faith comes by hearing, and hearing by the

Word of God, and Gottfried establishes a firm foundation in the Word of God for our transition out of the "World System" and into the "Kingdom of God". This book is a real eye-opener and an invitation to step out of darkness and into God's marvelous light - not only in the area of finances but in every area of our lives. I recommend this book to anyone who is intending to co-labor with God in bringing in the endtime harvest.
