Review

“Highly recommended for all academic and large public libraries.”—Choice

“A great scholarly enterprise.”—New Mexico Historical Review

“Bringing the knowledge of modern scholarship to bear on their materials, the translators have been able to illuminate many obscurities in the text. The complete series of volumes is a landmark of scholarly achievement.”—The New Mexican

“This publication of Sahagún makes available to scholars and their students alike the original Nahuatl text for comparison with the more easily accessible Spanish text, which is in many places merely an abridgment or précis of the original. A whole series of native sources for the study of Mexican pre-conquest history is now at hand for a field of historical study formerly restricted to a small number of investigators. A whole chapter of the cultural history of early Colonial Mexico is unfolding before us. [The Codex is] an impressive

monument to Spanish humanism in the sixteenth-century New World.”—The Hispanic American Historical Review

“Sahagún emerges as the indisputable founder of ethnographic science. The accomplishments of the joint translators, Dibble and Anderson, will surely rank among the greatest achievements of American ethnohistorical scholarship.”—Natural History

Bernardino de Sahagún (Sahagún ca. 1499-Ciudad de México, 1590), España. Su nombre original es Bernardino de Rivera. Sahagún escribió en náhuatl y castellano, y su obra es muy valiosa para la reconstrucción de la historia del México anterior a la Conquista. Hacia 1520 Sahagún estudió en la Universidad de Salamanca. Allí aprendió latín, historia, filosofía y teología. Hacia 1525 entró en la orden franciscana y en 1529 se fue a México en misión con otros frailes, encabezados por fray Antonio de Ciudad Rodrigo. En 1536 Bernardino de Sahagún fundó el Imperial Colegio de la Santa Cruz de Tlaltelulco. Desde el comienzo enseñó latín allí. El propósito del Colegio era la instrucción académica y religiosa de jóvenes de la nobleza nahua. Bernardino estuvo luego en conventos de Xochimilco, Huejotzingo y Cholula; fue misionero en Puebla, Tula y Tepeapulco (1539-1558); definidor provincial y visitador de la Custodia de Michoacán (1558). En 1577 sus trabajos fueron confiscados por orden real y sus investigaciones sobre el mundo azteca fueron mal consideradas.

FLORENTINE CODEX: BOOK 10: BOOK 10: THE PEOPLE (FLORENTINE CODEX: GENERAL HISTORY OF THE THINGS OF NEW SPAIN) BY BERNARDINO DE SAHAGUN PDF

Two of the world's leading scholars of the Aztec language and culture have translated Sahagún's monumental and encyclopedic study of native life in Mexico at the time of the Spanish Conquest. This immense undertaking is the first complete translation into any language of Sahagún's Nahuatl text, and represents one of the most distinguished contributions in the fields of anthropology, ethnography, and linguistics.

Written between 1540 and 1585, the Florentine Codex (so named because the manuscript has been part of the Laurentian Library's collections since at least 1791) is the most authoritative statement we have of the Aztecs' lifeways and traditions—a rich and intimate yet panoramic view of a doomed people.

The Florentine Codex is divided by subject area into twelve books and includes over 2,000 illustrations drawn by Nahua artists in the sixteenth century.

Book Ten gives a broad overview of the different occupations, classes, and characteristics of Aztecs during this time period. Arguably the most fascinating part of this book is the detailed documentation of human anatomy and commonly used cures for physical ailments.

The English translation is clear and easily understood.

By John D. Comegys

Classic book, one of the marvels of the Mexican (MesoAmerican) contribution to World Civilization and mankind. The Florentine Codex was a series of works on Mexico, its people and their history overseen by Fray Bernardino Sahagun a Franciscan sympathetic to Mexicans and Mexican civilization, if not to their religion. It was written in the 16th century within living memory of the pre-Columbian Mexican Civilization. This printing is hardcover and suitable for libraries and serious students of Mexico. This volume is on the people of Mexico. Fray Sahagun is considered by many to be the first anthropologist. Fray Sahagun's work is without parallel and this is the only hardcover edition of his work still in print. The English translation is clear and easily understood.
