This is a great break down of what one should be encouraged to ...

By paulette riley

This is a great break down of what one should be encouraged to do before taking any science class. This sets the stage for what to come. some break down of the simple stuff.

Review of preparatory material

By dallaspatents

This book does NOT have ANY material that you will find in your Anatomy and Physiology course. But it does give a pretty good review of the material you should know before starting an A&P course.

Great book for a jump start on A&P!

By MizMaverick

Just started my class and been out of school for 12 years and from this book I am further ahead than the kids coming right out of high school!
