The book *Introduction To Health And Safety At Work By Phil Hughes, Ed Ferrett* by simply could aid you to understand having the e-book to review every time. It will not obligate you to always bring the thick book wherever you go. You can simply keep them on the gizmo or on soft file in your computer system to constantly review the space during that time.

## Review

"This new edition is bigger, better and brighter than its first incarnation and is highly recommended for anyone embarking on the NEBOSH National General Certificate. But don't just confine it to the back of the bookcase once you've passed the exams. It should form the basis of an expanding health and safety library for those just starting out on the road to becoming a health and safety professional, or those for whom health and safety is not their main role."

Nick Cornwell-Smith, Safety & Health Practitioner (SHP) Magazine

## From the Back Cover

Introduction to Health and Safety at Work has been developed for the NEBOSH National General Certificate in Occupational Safety and Health. Each element of the syllabus has a dedicated chapter and both taught units are covered in this book. A chapter on international aspects also makes this book suitable for the NEBOSH International General Certificate in Occupational Safety and Health. Previous editions of this book have been used for other NVQ level 3 and 4 courses in health and safety. Full colour pages and hundreds of illustrations bring health and safety to life. To make studying easier, each chapter starts with learning outcome summaries and ends with questions taken from recent NEBOSH examinations. Specimen answers and a study skills chapter aid exam preparation. As an introduction to all areas of occupational safety and health the book acts as a practical reference for managers and directors with health and safety responsibilities, and safety representatives. It covers the essential elements of health and safety management, the legal framework, risk assessment and control standards and includes handy forms and checklists. New in this edition:

Updated throughout in line with changes in the regulations  
outcomes now included at the beginning of each chapter

Learning  
Companion website with

downloadable health and safety forms

\*Endorsed by NEBOSH \*Student-friendly presentation in full colour, packed with illustrations and photographs \*Revision questions and sample answers taken from recent NEBOSH examinations to test your knowledge \*Includes a summary of the main legal requirements, ideal for both students and managers

A free companion website is also available at: [www.elsevierdirect.com/companions/9781856176682](http://www.elsevierdirect.com/companions/9781856176682) and features:

- Selected appendices sections in electronic format

Phil Hughes MBE, MSc, CFIOSH, is a former Chairman of NEBOSH (1995-2001), former President of IOSH (1990-1991) and runs his own consultancy. He received an MBE for services to health & safety and as a director of RoSPA, in the New Years Honours List 2005.

Ed Ferrett PhD, BSc (Hons Eng), CEng, MIMechE, MIET, CMIOSH, is a former Vice Chairman of NEBOSH (1999-2008) and a lecturer on NEBOSH courses at Cornwall Business School of Cornwall College. He is a Chartered Engineer and a health and safety consultant.

#### About the Author

About the Authors Phil Hughes is the president of Specialized System Consultants (SSC) and the publisher of Linux Journal magazine. He has authored or edited many of SSC's Pocket Reference cards for the UNIX operating system and utility programs. Phil has worked in computing as a programmer and design specialist since 1968. He has worked with UNIX since 1980 as a systems programmer, consultant, trainer, and writer. In 1983, armed with that one English class he took in college, he turned SSC into a company that specializes in documentation for UNIX systems. Viktorie Navratilova has been working with UNIX for several years, and her main interests are computer graphics and UNIX and network security. She writes regular articles about Linux and computer security for computer magazines and gives talks at the local Linux users' group and Webgrrls meetings. She is particularly impressed with the global Linux community, which has always been helpful and friendly no matter where in the world she's traveled. Viki earned her bachelor's degree in computer science from Loyola University of Chicago and now works in Chicago for BlueMeteor, a startup Application Service Provider.

Excellent

By Nithiavel Rathinam

A great book for those embarking on a career in health & safety, or even for managers, leaders who are looking for great tips on safety issues for their companies. Well structured, great contents, and the book is easy to read and understand. Worth the read.
