This should have been called "Mundane Statements for Minecrafters".

By Mike C.

Please, if you're a parent or adult looking to buy something for a loved child in your life, DO NOT BUY THIS!

First, this joke book contains no jokes. No puns, no play on words, no irony, no nothing that could be objectively be called humor. The book reads more like an instruction manual.

For example (this is actually in the "joke" book):

What happened to the player who encountered two creepers?

He was destroyed!

That "joke" is just like all the rest. It sets up an event, and then tells you the most likely conclusion to that event. If you were reading that as an instruction manual you could figure out that "creepers" probably explode or are very dangerous. So, if you want a round-about way of learning the game mechanics, by all means, get this book.

To end I'll post a couple more "jokes" to prove my point:

Did you hear about the player that tried to put a saddle on a creeper?

He went boom!

(For some reason "He went" was in italics and "boom" was not. Not sure what that's supposed to mean)

Did you hear about the player who was killed by a skeleton?

He respawned!

("Respawning" just means you end back up at your bed after you die in game. So in other words this "joke" says "What happened when the player died? The same thing that happens every other time you die!")

Great way to humanely torture your friends

By Nate Szigeti

I bought it part out of irony, and part to torture my friends. Works pretty well on both ends. If there's an awkward silence while we're skyping or something, I like to pull it out, flip to a random page and make things even more awkward, but much louder as we all half laugh and grown in disgust and confusion.
