excellent

By Rawl Bear

I just bought this excellent reference book. It is concise, to the point, and a great tool for any pediatric practice.

There is no other pediatric reference book like it. Unlike Bates, it is only pedi, not adult. I had been waiting for an assessment

book like this for years! I recommend it highly as every venue where children are treated needs this book.

Great reference

By nurse_de

I rented this textbook for an Advanced Pediatric Assessment Course and now I'd like to purchase it.

It is very comprehensive and up to date.

There are better books out there!

By Christine

There were many printing mistakes as well as some conflicting information. I would buy the Bates book!
Otherwise the book came on time and with out issues.
