REMEMBER, REMEMBER: LEARN THE STUFF YOU THOUGHT YOU NEVER COULD BY ED (MR. MEMORY COLUMNIST ON THE TIMES) COOKE PDF

Kings and queens, British prime ministers, American presidents, countries of Europe - we should all know these things - but like me, you're probably resigned to being the kind of person that just never will. Now Grandmaster of Memory Ed Cooke offers up his memory secrets with a fun, quick and completely unforgettable way to remember the things you thought you never could. But this is no boring Willy, Willy, Harry, Ste. With Ed leading the way on unlikely adventures through people and places, Abraham Lincoln may become a circle of bra-wearing hams linking arms in your mind, and you may well encounter a fridge wearing Calvin Klein underpants. You could also soon find yourself rattling off the prime ministers to a rapt audience and adding, in a knowing tone, 'ah yes, Marquess of Rockingham, Whig I believe?'. What is for sure is that you'll be bursting with knowledge that will stick in your mind and impress your friends for ever.

Learn by doing

By Josh Vogel

I think this book is best purchased after you buy some other books about memory training. Dominic O'Brien has a number of excellent ones out there (just to pick one of my favorites, there are plenty of others) as does Fiona McPherson. Having a background in how mnemonic techniques work, and the variety of techniques available is useful because this book doesn't really explain too much about how the stuff works, but rather jumps right in to having you learn via the "Journey method".

It's a great example of how to use some Mnemonic techniques "in action" and you will probably remember a great deal of the things you are trying to remember after the first reading of this. If you apply this method to other things, you will probably find it very effective, as I do. Ed Cooke does a great job of making something that I would never otherwise learn seem very interesting and fun to memorize.

Nice work!

Outstanding

By jimmy l hudsons

This book has a wonderful way to remember things. I have learned more about history in a week than I have in many years. The thing is it sticks to you like super glue lol. If you want specific memory techniques go with Dominic obrien, but this is an excellent choice to help you breakthrough creativity of the mind, it gives that push you need. Happy reading and enjoy.

learned the US presidents in 10 minutes

By Erik van Mechelen

To those seeking examples of imaginative ways to initially engage with and ultimately to learn the topic of your choice, Ed Cooke's delivers. Quite neat to see inside this Grand Master of Memory's head. Plus I learned the US presidents and why they are important in about 30 minutes.
