Take a big step toward fluency in Irish Speaking Irish is a unique opportunity to sharpen your listening and conversational skills in the company of speakers from all corners of Ireland. Filmed on location throughout Ireland, the DVD features authentic, unrehearsed interviews with more than twenty Irish speakers, representing all three regional dialects. Just put the disc in your DVD player, and your journey begins. Hear Aoife weigh the pros and cons of life in Dublin as opposed to the Irish countryside. Listen to Mn describe a good friend. Learn about Gaelic games and their place in the community from Donncha. And enjoy animated discussions of other topics like family, education, the environment, the Gaeltacht, and the Irish in America. The companion book provides a transcript of all the interviews, plus extensive exercises and notes on vocabulary, grammar, regional variations, and more.

Note: The Kindle edition of this book does not include any CDs or DVDs.

An excellent product

By Shayn Mccallum

What a delightful, well-produced and useful piece of work this book/DVD is! I was pleasantly surprised by just how very useful it turned out to be. The interviews on the DVD are fascinating in that they involve interesting, articulate people speaking naturally and unaffectedly, in Irish, on a wide variety of subjects. With the inclusion of speakers of Irish sign language as well as hearing respondents from very different walks of life, and speaking various Irish dialects, this DVD provides a valuable picture of linguistic and cultural diversity among modern gaelgeoiri.

I would rarely go so far as to give a product 5 stars but I felt that this book/DVD is exactly right for people who have some Irish and who want to improve aural comprehension using authentic materials. The book provides transcripts, translations at the back and just enough information to be helpful without swamping the student or blocking discovery. I would like to wish a hearty "comhghairdeas" and extend a heartfelt "go raibh maith agaibh" to everyone involved in the production of this wonderful resource. Well done!

A supplement for intermediate students

By John McGuire

The DVD is all Irish with no option for subtitles. It provides 2 hours of listening to a wide range of speakers to tune your ear to recognizing Irish in a variety of settings and dialects. The book provides guidance on how to get the most out of the DVD and some extra information on the language itself. The interviews are transcribed in both Irish and English so you do get some reading practice. The exercises in the book for each segment are brief. The book and DVD provide a good supplement to a more complete course, but does not stand alone. If you are following another course such as Progress in Irish, Buntus Cainte this is a good next step once you're well acquainted with the language.

Handy to have

By Sezza

This is handy to have but might I suggest if you intend to learn the language have someone who speaks it to help you.
