For the Disney music fans

By Kristen La Madrid

This book contains 240 Disney from various forms of entertainment, including: 1) animated features/featurettes, 2) live action, 3) television, 4) Disney theme parks, & 5) theatrical production. It is likely that this edition was published before "Tangled" & "Frozen", since no songs from those movies are included in this book. There is one index by song title & another by show title. Most, if not all, of the songs seem to be written in the original key. Although there are a lot of songs, a lot of them are classics from older shows; therefore, the millennial generation may not appreciate some of these songs. My only disappointment is that there are only 2 songs from The Hunchback of Notre Dame & only 3 songs from Pocahontas. Over all, it's a good investment for the Disney music fans.

this is great because most

By Mr. Freeze

As far as fake books go, this is great because most, if not all, songs are in their original keys. Many fake books put things into "easy" keys, this seems to stay true to the keys and rhythms of the original songs.

Such Fun

By Jeremy

This is a great purchase, I love to arrange the songs for my students and myself to play for fun. My students enjoy the songs because they know them, and they also get to learn many chords such as augmented and diminished chords as well as key changes all under the guise of fun Disney songs! The students can also play melodies that they are familiar with and the songs have been met with success so far.
