## Review

A Kirkus Best Book of 2007 A San Francisco Chronicle Best Book of 2007 (Children's Nonfiction) A Rocky Mountain News Best Children's Book of 2007 Green Earth Book Award Winner (Non-Fiction Category) A CCBC Choices Selection 2008 2008 Santa Monica Public Library Green Prize for Sustainable Literature 2009 California Readers Collection

"I've never seen such a comprehensive explanation of the [global warming] phenomenon in so few words."

— The New York Times Book Review

(Reviewed by Hank Green, editor-in-chief of EcoGeek.org)

"The Down-to-Earth Guide to Global Warming...brings knotty matters down to manageable scope for youngsters ages 8 and up." Metropolitan Home Magazine

"It's easy being green with Laurie David and Cambria Gordon's informative book, which helps kids understand what's happening to our environment."

— Parents Magazine

"Funny and full of tips, the book informs—and empowers—kids and adults alike."

— Family Circle

"The heart of the book is in making the concept of global warming understandable for your kids."

— <http://www.dailygreen.com>

"Four well-organized sections define the issue and give examples of consequences in the physical world, extinctions in the animal world and what young people can do. A humorous tone, eye-catching graphics and celebrity connections lend pizzazz to this volume, but there is plenty of substance, too."

— Kirkus, starred review

"Dynamic layouts and abundant illustrations and photos enliven the passionate words—lush, full-bleed photographs emphasize the high stakes by portraying both the splendor of the natural world and the

devastating effects of climate change. Printed in soy ink on recycled paper, this engaging and accessible guide, ideal as a gift or book-club option, inspires commitment to the planet.”

— Publishers Weekly, starred review

#### About the Author

LAURIE DAVID is devoted to stopping global warming. She founded the Stop Global Warming Virtual March and has produced several projects that aim to bring global warming to public attention, including the TBS Earth to America! comedy special, the HBO documentary Too Hot Not to Handle, and Al Gore's documentary, An Inconvenient Truth. She was voted Glamour's Woman of the Year for 2006. Laurie lives with her husband and their two daughters in Los Angeles, California.

Cambria is a former award-winning advertising copywriter. She has written articles for Boys Life, Parenting, and the Los Angeles Times magazine. Cambria speaks to children all over the country about reducing their carbon footprint. She sits on the Los Angeles Leadership Council of the Natural Resources Defense Council and lives with her husband and three children in Los Angeles.

inconvenient truth

By Richard S. Schmitz

This is a truly great challenging and inspiring film. Al Gore and this film deserve all the awards and Nobel Prize they earned.

66 of 94 people found the following review helpful.

Incorrect Critical Charts

By John Green

Readers should be aware that the the first editions of this book contain a chart (page 18 ) of the past 650,000 years that shows that CO2 emissions rose BEFORE global temperatures. In fact, the chart is reversed - CO2 emissions did rise, but only hundreds (in some cases thousands) of years AFTER temperature rises. For some reason the chart lines are backwards.

Scholastic is planning to issue a revised version with an updated chart, but there will be no revision to the text of the book, which references and explains the chart. I don't know that most kids will notice that the chart does not support the argument, but an important subject like this should be accurate in all details.

With such inaccuracies I do not recommend the book. Explain global warming to your children yourself - and be sure and use accurate information!

Hopeful and Empowering for Kids (and adults too!)

By Dede Robin

This book is fantastic! It discusses a potentially scary subject in an engaging and surprisingly optimistic way, informing kids while also giving them a feeling of hope and empowerment. The ideas in this book are presented in a clear and clever way. The authors even managed to bring a tone of lightheartedness to an undeniably heavy topic.

The importance of preserving our children's future is not political issue...it is a love issue. And whether you drive a Prius or a Hummer, there's no doubt that we all love our children. This book helps us open our eyes and our hearts to the many small (and not so small ways) we can each contribute to a cleaner, safer earth. And it allows our kids to be part of that healing.

There are so many things kids can do to help care for our world, and this book gives them the tools with which to do it. It also invites them into an age appropriate sense of responsibility and ownership for the animals and nature that they adore. The book imparts practical, doable ways kids can contribute and lets them know that they (and their efforts) count!
