Always make friends with women. It is a cliché that women never have sex with their friends. (This is a lie-- a LOT of women have sex with their friends; when they are drunk, when their friends are hot, when they are lonely, when they realize they "really like" their friends...), but making friends with women disempowers and demystifies women in general. They are no longer foreign objects, or strange creatures from the planet "I want some of that!" You easily become comfortable with women in general which makes it easier for you to be comfortable with the women you want to do all kinds of fun things with. By contrast, if you cannot make casual friends with women you will have a much harder time getting the ones you want to do ANYTHING you want. Go easy on yourself; practice being yourself on your women friends. Practice increasing your sexual appeal with people (female ones) who already like you. This will make it infinitely easier to approach the super-hotties you can't seem to stop drooling over. It will also help your sexual prowess, as getting with a girl won't be such a huge accomplishment that your body gets all orgasmic on you at the thought of her touching you. These are just a few quick tidbits to work on. Try my book. It is cheap and easy. And it really does work--it is the "basic" foundation that every successful PUA masters. When you are tired of spending money on secret tricks and super-advanced techniques that are hard to master--come back and get real results. From the Back Cover

When it comes to meeting women, the first 30 seconds are the hardest . . .

The biggest problem most men have in getting laid is knowing how and when to approach hot young women they see (at the office, the gas station, standing in line) and how to get her interested in you. Even when you flirt with a young college girl working the counter at Starbucks, two essential questions linger:

How do I get her phone number"

-- and --

Ho do I get a date with her this Friday?

This book takes all of the guesswork out of meeting and picking up hot young women, no matter where they

are. From the moment you see here and the first few words you say to get her attention, through getting her phone number, this book teaches you how to get her attention, through getting her phone number, this book teaches you how to do it in an easy to follow, step-by-step fashion. You will learn how to approach women any time, anywhere, without feeling nervous, or having to resort to stupid pick-up lines. You will be in control.

If you don't firmly hold a girl's attention for the first 5 minutes of meeting her, your chances of getting her phone number are lost.

This is not a book about how to have some magical "mastery over women." It is a book on how to get a date TONIGHT without having to spend any money! The first section of this book breaks down every possible way you could approach women, but it all comes down to this: either you say hello to her or she approaches you. All the rest is simply details. Don't over think this part. The second section of this book reveals a secret, devious way to pick up almost every woman you meet without her even guessing that you are working your magic on her. This easy-to-master technique is so sneaky, fun, and powerful that you will command her complete attention long enough to impress her, find out anything you want about her, and get a date. Read this book and change your life. Then read it again and practice every technique in this book. You will find yourself surrounded by beautiful girls all-the-time. About the Author

An excellent guide for the average man

By Game Dr Publications

This book is hilarious - and it works. It is a step-by-step guide to meeting girls on the street (coffeehouses, laundromats, grocery stores, gas stations... you get the idea). We didn't really see much on funerals: the author did mention picking up girls at funerals, so we were hoping for a bit more detail on that. But what you will learn here is how to approach ANY girl casually, no matter where you are, and with no stress on you: no matter "how hot you think she is." Then you will learn how to transition from "hello" into getting the girl interested enough in you to give you a few minutes of her time to work your magic, and then get her number. Not to worry, the author even has a few tricks to show you how to do that as well. This book is a MUST HAVE, but it is far from the only book you should read.

This book will not make you a superstar PUA, but if you have any game at all, what you will learn here will definitely improve your performance just about anywhere. You will even learn how to pick up girls in front of your girlfriend, and how to pick up 2-3 girls at once (in front of each other). We tried some of these techniques and they were as easy as the author claims. Of course we have had some practice over the years, but even so, this is stuff any guy can - and should - master.

The price was reasonable enough - about 1/2 the cost of a cheap first date, and the laughs were pretty good as well. If you do get a copy of this book, ****be sure to read the entire thing****. It is a 30 day home study course on picking up girls you see everywhere, but it is also a course on becoming more popular in general. It won't teach you game, but it will teach you how to use what you've got - even if you only have a little.31 of 36 people found the following review helpful.

Decent, but information overload dude!

By Ralph Garamond

Okay, so I liked the book - but if it were about 50 pages shorter I might have liked it a lot better. This guy starts off with how to pick up chicks wherever you see them every day, and he goes too much into why this approach works, and how this other approach is weak or strong (he sounds like my old professors), and then he has this cool section on how to read their palms (I have seen guys do this stuff - that and that trick where they tell your future by your handwriting). Anyway, that was all okay, and of course he has to spend a hundred pages telling you how to put all of this together; what to do if she says this, what to do if her boyfriend shows up, how to get out of a conversation with a psycho chick (I say just leave - don't even say goodbye), and then he has some tests, and experiences from people I really don't care about. No offense but I just ant to know how I can get laid, you know?

This book has a TON of information but I felt like I was back in school. I did try what he said over the past week and a half and it seems to be working, I got a few chick's phone numbers, but I think he could have saved me a lot of time reading by just telling me straight out how to approach hotties at the store, gas station (and so on), get the number and leave it at that. Once I have a girl's number in my pocket I think I know what to do. I don't know. Does it work? Sure. And it is funny at times. But it is pretty heavy stuff. look, if you are looking for something really quick, check out Seduce Me. The Mystery Method is also killer, but it takes a while to build up your game using his techniques. Mystery is out to turn guys into PUAs. A book like this or Seduce me is just about having some fun meeting hicks and getting dates when you want one. See all 14
