Beautiful book that is well put together and laid out ...

By D. Raskin

Beautiful book that is well put together and laid out featuring some of the best Star Wars themed tattoos anywhere. It finds a balance between highlighting those that get these type of tattoos to the artists that create them. There are some great pictures of amazingly creative, and well thought out, Star Wars tattoos; both big and small. The book is an impressive feat as it goes worldwide, featuring artist from varied countries and locales, and shows how universal the love for SW and tattoos are, while highlighting difference in tattoo styles. The book flows well and the production from quality of binding to paper that it is printed on, is superb. Liking SW and tattoos, I can't say enough good things about this book and highly recommend it to those interested in it.

If you are a SW fan with Tattoos, THIS is the book for you

By JerZyTattoos

OH MY GOD THIS IS THE BEST BOOK EVER!! This is a wonderful journey for collectors, and artists alike!

If you get this one and don't have Vol 1, you'll need it. Beautiful photos, great write ups! One of these coffee

table style books then NEVER leaves my table. Highs quality and DURABLE (yes that is a factor with books to me) not a flimsy book. It has major weight to it because it's FILLED with awesome. It could also be used as an anti theft device (use your imagination, this thing is MASSIVE) and could possibly stop a speeding bullet and save your life. I haven't tested this out, but I'm not going to say it's impossible.

Buy one, Buy two, Buy Forty-Two.

You'll thank me later.

A must for Star Wars and tattoo fans

By Bob

The Force in the Flesh Vol. 2 is a fantastic book for those who are fans of tattoos and Star Wars. The book is organized by tattoo artist with each artist receiving a detailed bio that dives deep into their Star Wars passion. From there the artist's work is highlighted in brilliant photos. The presentation and the organization of the photos is amazing. By far the best part of this book is that there are over 300 pages of photos!!! I am thrilled with my copy and it is displayed prominently in my living room and is always a conversation piece.
