The Successful Single Mom

By Véronique

Last year, I bought several books written by Honorée Corder ( "Tall order", "Vision to reality", "The Successful Single Mom") and also the coaching podcasts. The last book I got is "The Successful Single Mom gets rich". I'm not going to comment each book separately because all the information I got has the same aim: self improvement for the single mom who is self employed. Since I tick those 2 boxes, I wanted to read everything I could and try to implement it.

I'm halfway my "100 days". I still don't see any improvement in 2 of my 3 "measurable goals". Goal 1 was to loose weight. I found inspiration in "The Successful Single Mom gets fit". In just 50 days I went from potato coach to a much fitter version of myself. I made time to exercise and I walk everywhere. My body is firmer and more toned. My waist is slimmer. However I didn't loose any weight.

Goal 2 was to have more money in the bank. I started a second job but was not able to save any money ( I used the money from my second job to give my daughter a magnificent Christmas ). My financial situation didn't improve.

I got some small improvements in my third goal ( decluttering my house).

I have still 50 days to go before I can tell if it worked or not. But since I started the "100 days", I could see huge improvements in other areas of my life ( who were not part of my 3 goals). I work more efficiently, loose less time, get better organized... ( thanks to the coaching podcasts). Two small miracles happened and I see them as " collateral benefits" generated by all the changes I tried to implement.

1) I got rid of my stalker. This was going on for nearly 6 years. He was sending me mails and texts several times a week, thriving on my occasional irritated answer. The last 50 days I was very busy with the podcasts, getting fit, working my 2 jobs, vacationing with my daughter, reading Honorée Corder's e-books... I had no time anymore to react to my stalker's abuse. It was no fun for him, so he stopped.

2) I have a health problem that could not be cured in my own country. In 2014 my doctor advised me to seek

treatment abroad but It seemed too complicated and too expensive. Since I implement the program, I start to see things differently. It took me half a day to find the relevant medical information. I made an appointment and booked my trip. I started my new treatment 2 weeks ago. My health problem will probably be solved before the end of the year. My health insurance doesn't cover treatments abroad but I'm able to pay for it with my second job.

If I hadn't started the "100 days", I would not have looked for a second job and I would still be thinking about seeking treatment abroad ( but not doing anything about it). I would still find demeaning messages from my stalker on my answering machine.

This is so much better! I'm taking care of my health and I'm free at last! Even if after 50 of the 100 days I'm still not any thinner or any richer, I already have a much better life. Thanks to the e-books and the podcasts, I get things done ( instead of procrastinating). It takes a lot of my time, so I don't have any left for fools or nonsense.

Great read as we approach the new year!

By Toni Holloway

There are not many books out there that help single moms navigate the specific details of moving from surviving to thriving. Honoree Corder gets it right with the Successful Single Mom series, and specifically through The Successful Single Mom Gets Rich! From goal setting to investing to career advice, Honoree's tips have helped me, even a single mama of seven years. This book will serve as my guide for all things financial in the coming months. Disclosure: I received a copy of this book in exchange for my honest review. All thoughts are my own.
