Very Informative Book!

By swelch84

I took Professor Smedley's class during the Spring semester. This book does a great job in outlining what virtual entrepreneurship is and how you can become your own virtual boss. I especially like the advice from other successful entrepreneurs throughout the book. It also does a great job of showing examples of what a good business plan and financial statements look like. The CD comes with helpful documents a person will need to create their business plan. Even if you don't take the class, the book has great easy to understand information on succeeding in becoming a virtual entrepreneur.
